

Fall in *love* with Fusion™!

Big changes are coming to your CMLS in February!

- The new Fusion™ MLS system will be released.
 - The new Fusion™ system is an upgrade, not a conversion.
 - Members will be able to access both TEMPO™ and the new Fusion™ system for several months.
 - Training will be optional, not mandatory.
 - Both systems will access the same database — no dual entry.
 - Fusion™ will be supported on Internet Explorer, Safari, Chrome and Firefox!
- Also arriving in February are new tools for mobile users.
 - Fusion™ Mobile is a mobile-friendly Web app that will work on iPhone, iPad, Android, Samsung and other devices.
 - In addition to standard search and display functions, Fusion™ Mobile will allow you to make price changes and status updates from your mobile device!
 - Our new “Puffin Experience” will enable you to interact with the full Fusion™ system on an iPad.
 - On the horizon (not in February) are native iPad and Android apps.

The CMLS staff looks forward to bringing you these exciting features!
